Millium

COMPACT AND FUNCTIONAL BURGLARY
PROTECTION

Millium

A range of safes to protect your cash, valuables and documents. From jewellers and retailers to banks and factory offices, Millium is a range of safes designed to securely protect your cash, valuables and important documents.

KEY BENEFITS

BURGLARY CERTIFICATION:

Millium is certified according to the European standard for burglary protection, EN 1143-1. The safes have been awarded the A2P label and approved by CNPP and ECB-S in Grades I E, II E and III E. In order to obtain the EN 1143-1 classification, Millium has been subjected to a series of stringent break-in tests using a variety of tools.

THREE PROTECTION GRADES:

I, II, III.

COMPACT, CLASSICALLY-DESIGNED:

Ideal for offices and the banking and retail sectors.

ADAPTATION:

Millium can be fitted with a range of interior accessories to help you get the most out of the safe's interior space.

SIXE SIZES PER GRADE:

43, 77, 107, 157, 235, 363 litres.

CERTIFIED LOCKS:

Millium safes have been designed to be equipped with Fichet-Bauche's patented mechanical and electronic locks. The locks, all of which are EN 1300 certified, can be fitted either individually or in conjunction with one another.

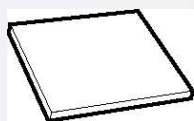

CHOOSE FROM A VARIETY OF FITTINGS

LOCK EXCELLENCE

The Millium range can be fitted with a variety lock combinations to further enable you to adapt the safe to your needs.

The MxB – level B/E – is a high-security mechanical lock. Due to the innovative shape and design of the key, over 10 million different possible keys can be manufactured.

The MC4 – level A/E – combination lock can accept over 28 000 different codes thanks to its four dials, each marked 1 to 12.

The Nectra electronic lock – level B/E – generates more than 110 million different code combinations and offers several levels of functionality. The standard version has 1 master code and 7 user codes, wrong-code blocking, time delay and a duress alarm.

This can be upgraded with the audit trail function (which records up to 500 events) and a biometric digital fingerprint reader.

The Moneo mechanical combination lock – level C/E – permits several million different codes. Its scramble-upon-opening feature ensures that the dials are automatically reset to 0 after being used.

The electronic lock – level B/E – is designed to be used as part of your security network. Kelnet locks are capable of exchanging and sharing information with one another and with your system, enabling you to rapidly modify security procedures.

TEST VERIFICATION

Once tested, products are analysed by the test laboratory in order to verify that they correspond to the technical drawings delivered prior to the test. Fichet-Bauche's patented composite material guarantees strong resistance against even the most high-performance attack tools.

FICHET-BAUCHE PROMISE

Fichet-Bauche products are designed and manufactured in accordance with the ISO 9001 standard for Quality Management Systems, ISO 18001 for Occupational Health and Safety Management Systems and ISO 14000 for Environmental Management Systems. The Millium safes deliver on the Fichet-Bauche guarantee: they are manufactured in France and all safe components are tested by the Fichet-Bauche laboratory in compliance with the current European standards.

LOCKING CONFIGURATIONS

Choose from a combination of mechanical and electronic lock combinations:

Lock Combination		MxB	MC4	Moneo	Nectra	Kelnet
All Millium sizes	1st lock	X	-	-	-	-
	2nd lock	X	X	X	X	X

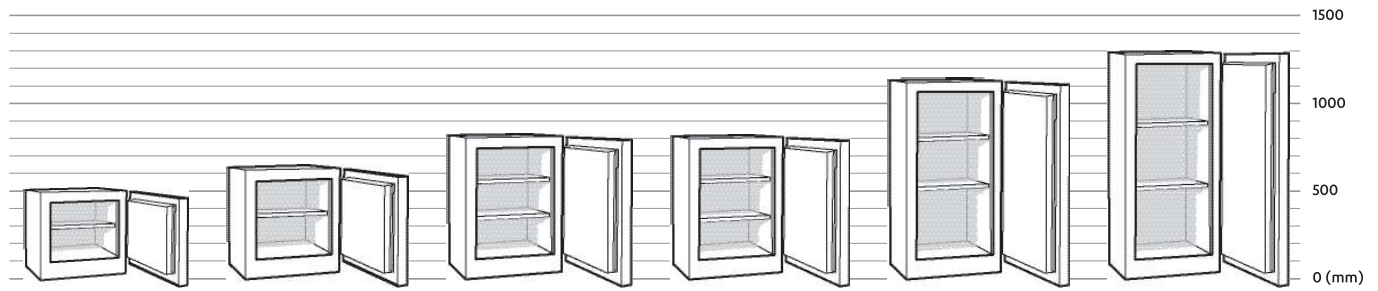

Single Lock	MxB	Nectra	Kelnet
All Millium sizes	X	X	X
